

Community Outreach Assistance Task Force

The mission and intended purpose of the Community Outreach Assistance Task Force is to provide a collaborative and holistic resource to the residents of East Hanover who may need social services through human services relations. Residents and families in need of assistance, who may or may not be aware of available resources, have the opportunity to request information or additional outreach services. In collaboration with the East Hanover Emergency Management Team, the Community Outreach Task Force will establish a partnership to optimize resident health and ensure that all individuals have equal opportunity for health and well-being. Services that are provided through our community:

- Evaluation of appropriate resources to assist residents
- Communication with individuals and/or groups specializing in the specific needs of each resident
- Referrals to the appropriate agencies and ensure resources are directed at those issues that pose the greatest risk
- Follow-up care and education regarding needed services
- Provide continuous access to education and resources
